Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

This Supplemental IDS is filed in the application identified above pursuant to 37 C.F.R. § 1.56. The reference cited herein was first cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this IDS. No representation is intended that a complete search has been made of the prior art or that no better art references than the reference cited in the IDS are available. The filing of this IDS shall not be construed to be an admission that the information cited in the IDS is, or is considered to be, material to patentability as defined in §1.56(b). Pursuant to 37 C.F.R. §1.98(a)(2)(ii), a paper copy of each cited reference is

provided herewith for review by the Examiner. The Tables provided in the reference are not of the best quality and additional copies of Tables 1 and 2 are provided herewith as a convenience to the Examiner.

The cited reference is believed not to disclose or suggest the invention recited in the claims of the above-identified application. It is therefore believed that the claimed invention is patentably distinguishable over the cited reference.

The Applicant believes that no fees are required for filing this IDS. If any fees are required, the Commissioner is hereby authorized to charge the same to our Deposit Account No. 10-0435, with reference to our matter 38102-76017.

Respectfully submitted,
BARNES & THORNBURG
